WARRANTY TERMS & CONDITIONS

WHY EUROCLEAN?

WARRANTY

Euroclean Vacuum Cleaners are warranted against defects arising from faulty workmanship and materials for a period of 12 months.

1. The customer will notify the Company in writing promptly of any defects noticed and give the Company or its authorized agent adequate opportunity to inspect, test and remedy them for which the customer will deposit the goods if so required by the Company, with the Company's Office/Service Centre along with original Invoice, in the city where they are sold.
2. Inspection and Test Report of the Company's Office/Service Centre will be final and binding under the Warranty for determining defects, repairs/alterations which are required or carried out or certifying working of the goods thereafter.
3. The Company or its authorized agent will be entitled to retain any defective part replaced under the Warranty.
4. Notwithstanding anything to the contrary contained in or implied by this.

Warranty

- a) The Company's liability under this Warranty shall be limited to the first sale for the goods by the Company to the Customer and will not apply or extend to any secondary sale of any of these goods by the Customer.
- b) The Company's liability under terms of Warranty shall be limited only to defects in the goods which occur under the conditions of normal operation of the goods and their proper and prescribed use. This Warranty does not cover or extend to defects which are determined by the company or its authorized agents as occurring or resulting from or attributable to negligence, abuse, misuse, faulty care operation or maintenance or repairs, alterations to the goods or any part thereof by others or the use of the goods on electric supply for which they are not designed or suffer damage caused by lightning or any other electrical disturbance or interruption which may occur. The rectification / replacement of the motor shall be at the company's discretion.
- c) The Customer will have no claim against the Company, its employees and its authorized agents or franchisees under or pursuant to this Warranty in respect of death or injury to the Customer or any other person or loss or damage to any property caused by or due to equipment failure, breakdown or accident, fire or operation or utilization of the goods otherwise than in accordance with the

User Manual or by or due to any other cause or circumstance beyond the control of the Company.

- d) The Company's liability under this Warranty shall in no event and under no circumstances exceed the price paid by the Customer to the Company for the goods stated in the invoice.

GENERAL

For the purpose of this Warranty, the following expressions shall have the following meanings respectively:

1. 'The Goods' shall mean the goods described in the Order Form.
2. 'The Customer' shall mean the original purchaser of the mentioned goods from the Company.
3. The Company' shall mean the Company 'EUREKA FORBES LIMITED'.
4. 'General Terms and Conditions' shall mean the Terms and Conditions agreed upon by the Customer and the Company which are printed on the Order.
5. 'Invoice' shall mean the invoice issued by the Company to the Customer describing the goods and indicating, inter alia, the total purchase price thereof and the name of the Customer.
6. 'User Manual' shall mean the instructions for installation, use and maintenance contained in the leaflet, which is supplied by the Company.

POST WARRANTY

1. The Customer may be offered a yearly Service Contract based on the prevailing Company Rates and Terms.
2. In case the Customer does not wish to enter the Service Contract, he has the option of calling our Service Centre and having its Euroclean Vacuum Cleaner serviced on an actual basis, i.e. by paying for Labour Cost and Spares needed to attend to that Service/Complaint call at the prevailing Company rates. Such service will be rendered by the Company in towns/places where there are Service Centres.
3. The Company will provide free servicing of the goods brought to the Service Centre by the Customer, provided that all expensed of transporting the goods to and from the Service Centre shall be borne by the Customer directly. If during such servicing it is necessary for the Company to replace or repair defective components or parts, the Customer shall be required to pay for the same as per the Company's prevailing price list.

- Highest selling vacuum cleaner in India, for over 34 years
- Largest network of service technicians ensuring 100% service within a 5 km radius
- Thank you for choosing us as your partner in good health!

THE EUROCLEAN ADVANTAGE

TECHNICAL SPECIFICATIONS

Active Shield™: The Active Shield™ coating on Euroclean dust bags builds an impenetrable wall of anti-bacterial fighting agents and traps & deactivates the harmful minute microorganisms inside the bag. This ensures 100% cleaning as well as 100% safety of the air expelled from the vacuum cleaner. (Available in Euroclean Dymomite Vacuum Cleaners).

Triple I™: The intelligent ion inducer technology works on the 'corona discharge' method. A tiny current of electrons flows down the needle to its point. The nearer the electrons come to the needlepoint, the closer they are forced together. Since electrons naturally repel each other, when they reach the very tip of the needle they are forced off into the nearest air molecule and become a negative ion. Negative ions repel each other as well, so as more and more are produced they are emitted further out into the air. Negative ionizers are proven to clear the air of dust, pollen, pet dander, mould spores and other potential allergens. Negative ions increase your sense of well-being and mental clarity by removing the debilitating effects of excessive positive ions in your environment. (Available in Euroclean i-Clean Vacuum Cleaners).

Ergonomics™: Euroclean vacuum cleaners & cleaning machines are designed with care, keeping the best ergonomic principles in mind. They are created to achieve new standards of operation along with ease of handling. For example, the soft gripped conical-shaped hose handle comes loaded with a patented 360 degree technology which swivels both sides, ensuring convenient and efficient cleaning every time.

Deep Cleaning+™: Euroclean efficiently cleans, disinfects and purifies your home from dirt, dust and dust mites. It cleans not only on the surface but also reaches every difficult deep nook and corner, thereby eliminating the fear of common dust-related allergies or recurrent illnesses. Optimised power suction, superior airflow and its ability to effectively remove the dangerous microscopic dust mites make the Euroclean a cleaning marvel.

Rated Voltage	AC 220-240 V
Frequency	50/60 Hz
Rated Power	1000 W
Boiler Capacity	350 ml
Steam Pressure	3 bar
Electric Shock Protection	Class 1

IMPORTANT SAFETY INSTRUCTIONS

WELCOME TO THE WORLD OF EUROCLEAN ECO CLEAN

GENERAL:

- 1.1 Application of Steam Cleaner for cleaning surface:
Always operate the appliance in accordance with the manufacturer's operation instruction.

NEVER ATTEMPT TO USE STEAM FOR CLEANING:

- (1) Switch, socket or other current carrying appliance.
- (2) Chemical fiber, silk fabric, low temperature plastic products or other low temperature products.

Following goods are recommended to be cleaned by steam:

Floor/wall: Ceramic tile, granite, waterproof wood floor, plastic floor, some cotton and wool carpet, washable wallpaper. Exhibit window, window frame, furniture, girder, chimney, show window, mirror.

Weaved things: Cotton and hemp curtain, bathroom shade, dirt on cloth.

Sanitation establishment: Bath tub, bath basin, shower bath, toilet, kitchen.

Vehicle: Bumper, interior decoration, rainproof device, motorcycle, bicycle, frame, wheels and others.

Cleaning the surface removes only dirt and dust. You need a powerful weapon to battle the millions of harmful microorganisms present in your house.

The Eco Clean Steam Cleaner from Eureka Forbes is a multipurpose machine that serves more than 10 cleaning functions. It is equipped with a chemical-free cleaning process which, with the power of steam, helps you deep clean stubborn dirt and dust with 100% accuracy. It also has a quick refill water tank which can be filled up even while the machine is ON. It instantly generates steam in less than a minute and eliminates viruses and bacteria completely, helping you keep your home sparkling clean and healthy!

Make the Eco Clean your handy health partner today!

IMPORTANT SAFETY INSTRUCTIONS

NAME AND FUNCTION OF MAIN BODY AND ACCESSORIES:

Main body:

1. Small steam nozzle - Steam comes out from here and accessory can be attached to it.
2. Safety valve - Add water from here. Turn right to close. Turn left to open.
3. Child lock - To prevent children from tampering the machine.
4. Steam release button - Press this button and the child lock at the same time, to release the steam.
5. Power cord
6. Power cord sheath
7. Main body
8. Indicators - Turns red in color during heating. If the pressure is ready, it turns green in color.

Special Caution: [Warning]

- Never jet steam against person or any animal, and never attempt to touch steam
- Never use wet hand to touch plug or cable or operate the appliance
- Never attempt to clean switch, power socket or other current carrying appliance
- Only fill clean drinking water into water tank, never attempt to fill in any detergent or other liquid (prevent steam cleaner jet nozzle from blocking by cotton or other fiber things)

3. SAFETY NOTICE WHEN NOT IN USE:

- (1) To prevent steam cleaner from an accidental operation, always switch off and unplug the unit.
- (2) Don't place the steam cleaner near any heat source (such as fire, radiator, heater, air blower and the like).
- (3) Never attempt to cover the hot steam cleaner immediately after use.

4. MAINTENANCE AND SERVICE:

Please turn off the power supply and unplug the unit immediately and contact service center for maintenance under following circumstances:

- (1) If the appliance or any part of the appliance is damaged.
- (2) In case of any product operational issues.
- (3) If steam or water is leaking from the appliance.

Special caution:

- Only competent service center or technician is allowed to maintain the appliance
- Always unplug the unit before maintenance or service
- Only specified spare parts are allowed to be used
- Never attempt to make technical amendment of the appliance such as electric system, any spare parts or technical parameters, etc.
- Check the steam cleaner input power supply before usage, confirm electric parameter of input power supply

Please read the below mentioned instructions carefully before first usage and pay special attention to the safety warnings. Keep the manual at an easily accessible place for regular consultation.

1. SPECIAL CAUTION:

- (1) Only a qualified operator is allowed to operate the appliance. DO NOT allow children to play with it.
- (2) Do not leave the appliance running or keep it slanted during operation.
- (3) DO NOT use jet steam against a person or an animal.
- (4) Never attempt to use the appliance beyond the recommended range of application, have a trial test in covert first for cleaning any object with material sensitive to temperature and humidity.
- (5) Don't damage power supply. For example, unplug the plug smoothly and straightly after use, but don't pull the cable.
- (6) Don't entangle the cable or steam tube, give them a hard pull and don't roll or press them. A severe vibration will damage the machine.

2. INSPECT THE APPLIANCE BEFORE USE:

- (1) Inspect steam cleaner's input and output cable connection and plug.
- (2) Check if the input power supply is in compliance with the requirement.
- (3) Fill in 250ml clean drinking water, close safety valve tightly before turning the power ON.
- (4) If steam cleaner's cable or steam hose is damaged, contact the sales department or service center for repair, change the spare part.

Accessories:

1. Straight nozzle - For corner/narrow space
2. Angel nozzle - For dead/narrow space
3. Point brush - For rest room, kitchen
4. Iron brush - Ironing clothes
5. Extension hose
6. Cloth for iron brush - Assembly
7. Floor brush - For floor
8. Funnel - For filling water in the unit
9. Measuring cup - For filling water
10. Cloth for floor brush
11. Extension tube

USAGE :

1. Assembly of steam cleaner
Choose needed accessories for connection.
2. Methods of filling water and caution:
 - (1) Turn left to open the safety valve. (Note: It cannot be opened when there is steam in the boiler, you must release all the steam to open the safety valve.)
 - (2) Use funnel to fill water, capacity is 250ml, then turn clockwise to close the safety valve.
 - (3) Only fill clean drinking water.
 - (4) Never attempt to fill in any detergent or other additive.

3. Start-up and caution:

Connect power supply notice:

Input voltage must be same as indicated on the appliance label.

- (1) Plug into the socket as required. Turn on the power.
- (2) When the indicator turns red in color, it means the heating is ON.
- (3) When the pressure is ready, the indicator turns green in color. The machine is now ready for use and can pump the steam.

Cleaning:

Have a trial test in covert first, for cleaning any object with material sensitive to temperature and humidity. The object which is to be cleaned must be able to sustain high temperature.

Push the child lock and steam release button at the same time. Spray steam for cleaning.

Open the safety valve when there is no water.

Important tips during cleaning:

- Don't clean electriferous appliance to prevent electric shock
- Chemical fiber and silk can not be cleaned to prevent scald
- To prevent window from cracking in winter, keep the jet nozzle 30 cm away from glass to preheat the window first

Turning off

Push the steam release button to release steam until no steam comes out, then turn off the steam release button. Unplug the unit, wipe the appliance with dry cloth. Pouring the rest of the water in the boiler. Let the unit to cool down and then store it.

Storage

- Never attempt to cover the hot steam cleaner immediately after use
- Don't place it near any heat source
- Place the appliance in dry surroundings with good ventilation
